## First Time Webinar Attendees!

- This Webinar will use **Elluminate**.
- If you have not yet participated in a Elluminate webinar then please go to [www.illuminate.com/support](http://www.illuminate.com/support) for instructions on setting up your computer. You should do this at least 72 hours in advance of a live webinar in case you have any problems that need to be resolved. For those with firewall blocking, you may require help from your IT support prior to the event in order to connect. If you have any hardware or software issues you can call Elluminate Support at 1-866-388-8674.
- You will be prompted to download some software which may take anywhere from 2 to 20 minutes depending upon your Internet connection speed. The steps you will complete are as follows:
  1. Check that you have Java installed. If you do not the screen will tell you how to download the latest version of Java.
  2. Make sure your speakers and/or microphone are set up correctly. You will need to enter the "Configuration Room" in order to test your audio setup.
  3. Do the "Recorded Introduction" to get an overview of how to use Elluminate as a participant. This takes about 5-10 minutes to complete
